**BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA**

In the Matter of the Application of North By NortheastCom, LLC for a Certificate of Public Convenience and Necessity to Provide Competitive Local Exchange, Resold IntraLATA and InterLATA Telephone Service Including Hi-Speed Data Service.

Application 02-04-042  
(Filed April 22, 2002)

**O P I N I O N****I. Summary**

North By NortheastCom, LLC (Applicant) seeks a certificate of public convenience and necessity (CPCN) under Pub. Util. Code § 1001 for authority to provide limited facilities-based and resold local exchange and interexchange telecommunications services. By this decision, we grant the requested authority subject to the terms and conditions set forth below.

**II. Background**

In prior decisions, we authorized the provision of competitive interexchange services by carriers meeting specified criteria. In addition, we authorized the provision of competitive local exchange service, by carriers meeting specified criteria, within the service territories of Pacific Bell Telephone Company (Pacific), Verizon California Inc. (Verizon), Roseville Telephone Company (RTC), and Citizens Telecommunications Company of California, Inc. (CTC).

Applicant, a Delaware limited liability company, seeks authority to provide limited facilities-based and resold interexchange services as a

nondominant interexchange carrier (NDIEC), and limited facilities-based and resold local exchange services as a competitive local carrier (CLC) throughout Pacific, Verizon, RTC and CTC's service territories.

Applicant's principal place of business is located at 11200 Murray Scholls Place, Beaverton, Oregon 97007.

### **III. Financial Qualifications**

To be granted a CPCN, an applicant for authority to provide facilities-based and resold local exchange and/or interexchange services must demonstrate that it has a minimum of \$100,000 of cash or cash equivalent to meet the firm's start-up expenses.<sup>1</sup> An applicant must also demonstrate that it has sufficient additional resources to cover all deposits required by local exchange carriers (LECs) and/or interexchange carriers (IECs) in order to provide the proposed service.<sup>2</sup> Applicant provided a guarantee by Metro One Telecommunications, Inc. (Metro), its ultimate parent company, that demonstrates that it has sufficient cash to satisfy the financial requirement.

### **IV. Technical Qualifications**

Applicants for NDIEC and CLC authority are required to make a reasonable showing of technical expertise in telecommunications or a related business. Applicant submitted biographical information on its officers that

---

<sup>1</sup> The financial requirement for CLCs is contained in D.95-12-056, Appendix C. The financial requirement for NDIECs is contained in D.91-10-041.

<sup>2</sup> The requirement for CLC applicants to demonstrate that they have additional financial resources to meet any deposits required by underlying LECs and/or IECs is set forth in D.95-12-056, Appendix C. For NDIECs, the requirement is found in D.93-05-010.

demonstrates that it possesses sufficient experience and knowledge to operate as a telecommunications provider.

Applicant represents that no one associated with or employed by Applicant as an affiliate, officer, director, partner, or owner of more than 10% of Applicant was previously associated with any telecommunications carrier that filed for bankruptcy or went out of business, or was sanctioned by the Federal Communications Commission or any state regulatory agency for failure to comply with any regulatory statute, rule, or order.

## **V. Tariffs**

Commission staff reviewed Applicant's draft tariffs for compliance with Commission rules and regulations. The deficiencies are noted in Attachment A to this decision. Applicant shall correct these deficiencies in its tariff compliance filing as a condition of our approval of its tariffs.

## **VI. California Environmental Quality Act (CEQA)**

CEQA requires the Commission as the designated lead agency to assess the potential environmental impact of a project in order that adverse effects are avoided, alternatives are investigated, and environmental quality is restored or enhanced to the fullest extent possible. Applicant represents that it will not be constructing any facilities, other than equipment to be installed in existing buildings or structures, for the purpose of providing interexchange or local exchange services. Therefore, it can be seen with certainty that there is no possibility that granting this application will have an adverse effect upon the environment. Applicant must file for additional authority, and submit to any required CEQA review, before it can construct facilities other than equipment to be installed in existing buildings or structures.

**VII. Request to File Under Seal**

Applicant requests that the financial information filed with the application, and on May 20, 2002, be filed under seal. The financial information consists of its estimated first and fifth year customer bases, and guarantees to Applicant by Metro. Applicant represents that the information is proprietary and sensitive. The information, if revealed, would place Applicant at an unfair business disadvantage. We have granted similar requests in the past and will do so here.<sup>3</sup>

**VIII. Categorization and Need for Hearings**

In Resolution ALJ 176-3087 dated May 2, 2002, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protests have been received. There is no apparent reason why the application should not be granted. Given these developments, a public hearing is not necessary, and it is not necessary to disturb the preliminary determinations.

**IX. Comments on Draft Decision**

This is an uncontested matter, in which the decision grants the relief requested. Accordingly, pursuant to Pub. Util. Code Section 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

**X. Conclusion**

We conclude that the application conforms to our rules for authority to provide competitive local exchange and interexchange telecommunications

<sup>3</sup> Applicant's motion filed, with the application, also asked for confidential treatment of Metro's U.S. Securities and Exchange Commission Form 10-K. Applicant subsequently withdrew its request for confidential treatment of this document.
